## YOUR CMA ASSETS

LONG PORTFOLIO	Adjusted/Total Cost Basis	Estimated Market Value	Unrealized Gain/(Loss)	Estimated Accrued Interest	Estimated Annual Income	Current Yield%
<b>TOTAL</b>	118,002.84	18,573.47	(99,429.37)			

**Total Client Investment:** Cost of shares directly purchased and still held. Does not include shares purchased through reinvestment.  
**Cumulative Investment Return:** Estimated Market Value minus Total Client Investment.  
**Cumulative Investment Return** is the dollar value of the capital appreciation (depreciation) of all shares purchased and still held, including shares acquired through reinvestment of dividends and distributions, which may be greater or less than the actual income distributed.

**Market Timing:** Merrill Lynch's policies prohibit mutual fund market timing, which involves the purchase and sale of mutual fund shares within short periods of time with the intention of capturing short-term profits resulting from market volatility. Market timing may result in lower returns for long-term fund shareholders because market timers capture short-term gains that would otherwise pass to all shareholders and due to increased transaction costs and fewer assets for investment due to the need to retain cash to satisfy redemptions.

**Sales Charge Discounts or Waivers:** Many funds offer various sales charge discounts or waivers depending on the terms of the prospectus and/or statement of additional information. You should consult a fund's prospectus and/or statement of additional information to determine whether you may qualify for a discount or waiver. Notify your Financial Advisor, Financial Solutions Advisor or Investment Center representative if you believe you qualify for any of these or any other discounts or waivers. Please contact your Financial Advisor, Financial Solutions Advisor or Investment Center representative for further information on available sales charge discounts and waivers.

**Unrealized Gain or (Loss):** Estimated Market Value minus Total Cost Basis (total cost of shares directly purchased and still held, as well as cost of shares acquired through reinvestment). Provided for Tax Planning purposes only and is not applicable to retirement accounts.

**Initial Purchase:** Date of your initial investment in this fund.

#### **Fixed Income Securities**

Values on your statement generally are based on estimates obtained from various sources and in certain cases only from affiliates. These values assume standard market conditions, are not firm bids or offers and may vary from prices achieved in actual transactions, especially for thinly traded securities. These values are generally for transactions of \$1 million or more, which often reflect more favorable pricing than transactions in smaller amounts. You may pay more than these values if you purchase smaller amounts of securities, or receive less if you sell smaller amounts of securities.

#### **Prices and Valuations**

While we believe our pricing information to be reliable, we cannot guarantee its accuracy. Pricing information provided for certain thinly traded securities may be stale.

Values on your statement generally are based on estimates obtained from various sources and in certain cases only from affiliates.

Investments such as direct participation program securities (e.g., partnerships, limited liability companies, and real estate trusts) which are not listed on any exchange, and alternative investments (e.g., commodity pools, private equity funds, private debt funds, and hedge funds) are generally illiquid investments. No formal trading market exists for these securities and their current values will likely be different from the purchase price. Unless otherwise indicated, and except for certain alternative investment funds sponsored by affiliates of MLPF&S, the value shown on this statement for an investment in these securities has been provided by the management, administrator or sponsor of each program or a third-party vendor. In each case without independent verification by MLPF&S. The values shown may not reflect actual market value or be realized upon a sale. If an estimated value is not provided, accurate valuation information is not available.

#### **Cost Data/Realized Capital Gains & Losses**

Cost Data and Realized Capital Gains/Losses are provided in this statement for informational purposes only. Please review for accuracy. Merrill Lynch is not responsible for omitted or restated data. Please consult your tax advisor to determine the tax consequences of your securities transactions. Your statement is not an official accounting of gains/losses. Please refer to your records, trade confirmations, and your Consolidated Tax Reporting Statement (Form 1099).

#### **Insurance Policies and Annuity Contracts**

Information is based on data from the issuing insurer. We are not responsible for the calculation of policy/contract values. Insurance policies and annuity contracts are generally not held in your MLPF&S account. If we, as custodian or trustee, hold an annuity contract that is a security, SIPC and excess-SIPC coverage apply.

#### **Estimated Annual Income and Current Yield**

Estimated Annual Income and Current Yield for certain types of securities could include a return of principal or capital gains in which case the Estimated Annual Income and Current Yield would be overstated. Estimated Annual Income and Current Yield are estimates and the actual income and yield might be lower or higher than the estimated amounts. Current Yield is based upon Estimated Annual Income and the current price of the security and will fluctuate.

#### **Market-Linked Investments (MLI)**

MLIs are debt securities or Certificates of Deposit linked to an underlying reference asset. They are reflected on your statement by their underlying reference asset - equities (e.g., stocks, ETFs, equity indices), alternative investments (e.g., commodities, currencies), or fixed income (e.g., interest rates). This classification method illustrates your asset allocation.
